

## Leigh

Leigh is an HND Make up Artistry Student at Coatbridge College. He finds the portable Firefox Web Browser particularly useful because he can access this wherever he likes, as a dyslexic student he finds the Firefox spellchecker particularly useful and can download a range of Firefox add-ons to personalise his browsing experience.

He also likes VLC Media Player which will play many file formats.

Leigh also uses Sonar Cursor Ring which highlights the mouse movement and is a useful tool for users with low vision or when demonstrating information to a large group.

## Guy

Guy is a Web Design Student who found Open Office useful when he was not able to access Microsoft Office Suite. He liked this resource because it is free; he can open existing MS documents and can create resources which he can save as MS Office documents

## Janet

Janet is studying HND Acting Performance. One aspect of her course involves learning lines for performances and as an auditory learner she finds that listening to information is easier to remember. She describes how she uses DSpeech text to speech software to convert lines into an MP3 audio file and listen on her mobile device, this helps speed up her learning process.

## Melanie

Melanie is studying NC Information Technology. She demonstrates how she uses DSpeech to listen to her work, in particular as a method of proofreading before submitting work. This helps because as an auditory learner it is easier to identify and correct work she needs rectify.

## Rachel

Rachel is studying HNC Healthcare. She finds the AccessApps resources very useful and in particular likes the fact that the resources do not look or feel different from any other application and also that they are portable and can be used anywhere. She finds the Typing Tutor application very helpful in improving her keyboarding skills.
