2. JANET Talk

What is it?

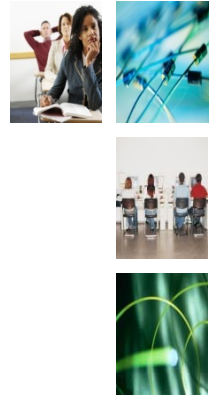

- In its basic form a voice service that enables PC's to become phone endpoints
- Uses JANET (and the internet) to make calls, NOT the telephony network (PSTN)
- A rich collaboration environment that links voice with; shared whiteboard, chat, application sharing and video

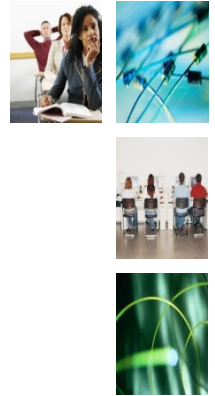

JANET Talk Trial

- JANET has 50,000 user licences
- Trial will consist of no more than 50 JANET connected organisations
- Each site limited to 100 licences initially
- Call for participation in JANET Talk Trial 18th January.
- Trial will start in March/April 2008
- Second call for participation to be issued in May 2008
- Trial participants will be granted use of licences for 12 months

JANET Talk Features

- Desktop client will (may) provide collaboration features including:
 - Voice
 - Video
 - Shared whiteboard
 - Application sharing
 - Chat (Instant Messaging)
 - Conference Bridging
 - PSTN “breakout” only (not 999)
 - Voicemail to email (.wav and/or .txt)

3. JANET Collaborate

Members will be able to

- search for other members with similar interests
- send a message to another member, inviting collaboration
- offer or request, search for and join “opportunities” for collaboration.
- create and take part in personal groups, forums and wikis
